

# Connect and communicate with your estate agent using the Roundr app

## What is Roundr?

Roundr is an app that makes communication and viewing scheduling between estate agents and their property sellers quick and simple.

Use the Roundr app to connect to your estate agent and stay informed about your property sale. From viewing requests, to feedback on buyers or showdays, it's all in your Roundr app.

### Easy to use

Simply download the Roundr app from your App store, and register using the code your agent provides you with. Once you and your agent are linked, your viewing arrangements and feedback are sorted in seconds.

### Viewings sorted

Receive, amend, reject or cancel viewing requests. View your upcoming appointments on a simple dashboard and calendar as well as on your phone's calendar.

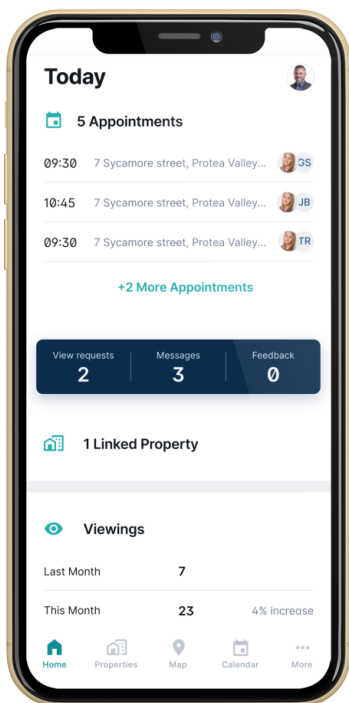

### Feedback at your fingertips

View all the feedback on your property in one place. Vital information to have at hand when making decisions on offers, mandates, or price changes.

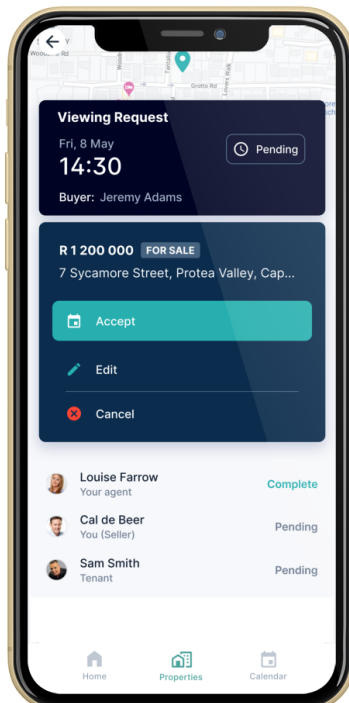

### Link more than one property

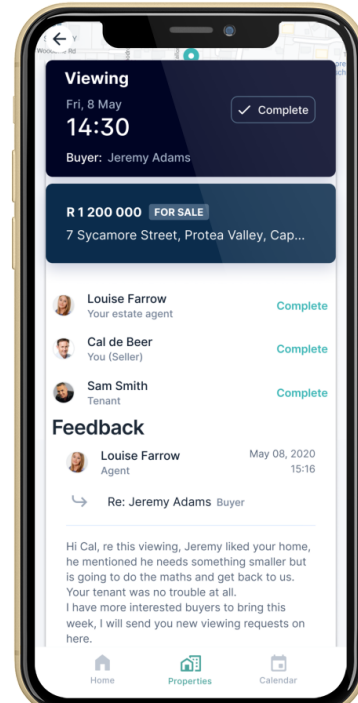

Selling more than one property? No problem, your estate agent can link all your properties to you. Requests and feedback sorted per property for ease of reference.

Keep track of viewings simply

Field and action all viewing requests

View feedback on your property and communicate with your agents
